Examiner: P. Lewis

For: COMPOSITIONS AND METHODS FOR THE TREATMENT OF CANCER Attorney Docket No.: 9516-022

RESPONSE TO RESTRICTION REQUIREMENT

Assistant Commissioner for Patents  
Washington, D.C. 20231

RECEIVED  
MAR 06 2003  
TECH CENTER 1600/2900

Sir:

This is in response to the Office Action mailed December 3, 2002, in which the above-captioned application was examined for restriction purposes only. Applicants respectfully request consideration and entry of the following remarks and provisional election in the file of the application.

REMARKS

On page 2 of the Office Action, the Examiner requires that the claims pursued in this application be restricted to one of five groups. Applicants provisionally elect, with traverse, group I (claims 1-11), but as discussed below, respectfully request that groups II-V also be examined in this application.

Applicants respectfully submit that a single search directed to thalidomide and a topoisomerase inhibitor would necessarily encompass all of the claims of groups I-V. For this reason, it is believed that the examination of groups I-V would not impose an unreasonable burden on the Examiner. Manual of Patent Examining Procedure, §803.01.
